

Dow AgroSciences Recognized for Best Formulation Innovation

Milestone® VM Herbicide Also Selected as Finalist for an AGROW Award

INDIANAPOLIS - Oct. 17 - Dow AgroSciences LLC, a wholly owned subsidiary of The Dow Chemical Company, has been recognized internationally for its innovation and stewardship. Dow AgroSciences was recognized as a winner in one category and as finalists in four other categories in the AGROW Awards competition, which honors corporate and individual excellence in the crop protection and production industry.

Winners, named October 16 at a dinner and presentation in Glasgow, UK, included Dow AgroSciences innovative EcoZome(tm) new century formulation technology as the 2007 Best Formulation Innovation. EcoZome technology is a system that delivers favorable attributes for active ingredients presently formulated as Emulsifiable Concentrates (EC) through reduction of undesirable organic chemical solvents. The EcoZome technology will provide superior physical stability and dilution properties when compared to other multi-phase formulations.

Other entries from Dow AgroSciences that were nominated in the following categories and named as finalists include:

- § Product Stewardship and Risk Mitigation for ProFume®Fumigant - Best Stewardship Program
- § Milestone VM and other aminopyralid-containing Herbicides - Best New Crop Protection Product
- § Spinetoram - Most Innovative Chemistry
- § Agricultural Science Outreach Tours - Best Public Program
