

## **ECO-PAK FOCUSES ON WESTERN STATES**

Jeff Ward has joined Eco-Pak LLC, a business unit of The Townsend Corporation, as Western Sales Manager. In his new role Jeff will be expanding the presence of Eco Pak in Western States and providing sales support. He joins a team focused on bringing solutions, savings and innovations to Integrated Vegetation Management (IVM) programs.

Prior to joining Eco-Pak, Jeff spent 15 years in sales and IVM, dealing in both herbicides and application equipment. He has experience in management and extensive knowledge of application techniques and products. Jeff graduated from Pepperdine University, with a degree in Business Administration. Jeff and his family are based out of Portland, Oregon.

Eco-Pak is committed to partner with our customers in providing custom blending and repackaging solutions that meet the challenges inherent in vegetation management right-of-way applications. Our value-added products and services offer vital features and benefits to help lower the cost of performing critical field vegetation management functions. Eco-Pak core competencies are dedicated to serving all our customers in the most responsible, cost-effective way while advancing the cause of environmental protection; enhancing worker and public safety in the field application of herbicides; and, maximizing efficiency through the systematic handling and overall management of herbicides.
